DETAILED ACTION

Response to Amendment

1. Applicant's amendments and accompanying remarks filed 11/14/03 (After Final) have been fully considered and entered. Claims 28-29 and 31-34 have been canceled, and new claim 35 has been added as requested. Applicant's amendment to claim 21 and the cancellation of claim 28 has been found sufficient to overcome the claim objections set forth in section 2 of the last Office Action. Applicant's cancellation of claims 28-29 and 31-34 renders moot the 35 U.S.C. 103(a) rejection over Hayes, US 2003/0027474 A1 in view of Nakashima et al., US 3,981,958 as set forth in section 4 of the last Office Action. Applicant's amendments are found persuasive to patentably distinguish the claims over the prior art of record for reasons set forth herein below.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Claims 21-27 and 35.

With regard to claim 35, the prior art fails to teach the claimed materials used for the viscosity layer or a modified styrene block co-polymer surface protective layer and presently there is no motivation to combine references to form an obvious type rejection.

As previously set forth in section 6 of the last Office Action, claims 21-27 and are found allowable over the prior art of record. Specifically, the prior art fails to teach or suggest a surface-treating agent comprising silicone, isophthalic acid, tetraisopropyl titanate, toluene, and wax. An updated art search did not produce any new substantial art for which to base a rejection on and presently there is no motivation to combine references to form an obvious type rejection.
